TAB A  
IAC-D-1/22  
7 January 1958  
Final

Tentative List

24. Likelihood and Possible Forms  
of Sino-Soviet Armed Aggression  
Short of General War

25. Soviet Attitude Toward  
Disarmament

Timing will depend on course of negotiations and developments at the UNGA and elsewhere, but we believe a review in greater depth than was possible in NIE 11-4-57 will be a useful contribution at some point over the next year.

26. Indian Economic Outlook

Another look at the prospects for the Second Five-Year Plan and the political implications will be desirable in 1958.

25X6

28. Chinese Communist Relations  
with the Bloc

Although this subject is treated briefly in both the annual Soviet and Chinese Communist estimates, developments in a number of fields, including Communist China's activities and influence in Eastern Europe, may require separate analysis. We last gave the subject separate treatment in NIE 58, September 1952. We will review the need for this estimate following publication of the annual Chinese Communist estimate.

TAB A  
IAC-D-1/22  
7 January 1958  
Final

- |                             |  |
|-----------------------------|--|
| 29. Hungary or East Germany | Additional country papers on one or more of the Satellites may be desirable during 1958. East Germany or Hungary probably should lead the list.  |
| 30. Laos                    | Depending on the progress of the rapprochement with the Pathet Laos, an estimate may be required.  |
| 31. Outlook for Italy       | Following the Italian national elections in the spring, a new look at the Italian picture should probably be undertaken.   |
| 32. The Algerian Outlook    | The highly unstable outlook will almost certainly dictate a new estimate sometime in 1958.   |
| 33. Uruguay                 | The possibility of growing estrangement between the US and Uruguay may make an estimate desirable.   |
| 34. Pakistan                | An estimate on Pakistan, both with respect to its internal situation and its capability for fulfillment of its external obligations, may become necessary during the First or Second Quarters. |
